**100 (or more) SPECIES IN ALL 39 COUNTIES in one year:
(year achieved)**

Matt Bartels (2011)
MaryFrances Mathis (2012)

Finally, birders were invited to note any special accomplishments this past year:

RJ Baltierra

Big year record for Whitman county smashed.

Stephen Chase

Per data on wabirder.com and eBird, I believe I hit the single-year high count for Whatcom County.

Bob Flores

Finally at least 100 in all Counties.

Steve Hampton

The old Jefferson County big year record was 211. In 2024, three of us equaled or passed it: me with 225, Dan Waggoner with 220, and Ali Kasperzak with 211. I should also note that Barry McKenzie was at 207, which was the county high count just a few years ago. These numbers were due to more birders, increased communication between birders (e.g. WhatsApp group), and access to Short Farm, which produced about half of our rarities. I understand the county-wide aggregate record was beat by 15 species.

Bill & Nancy LaFramboise

100 in every county. Benton got its first Broad-winged Hawk.

Mason Maron

I added Boreal Owl and Northern Hawk Owl as lifers this year, meaning I've now observed and documented every owl species in the state!

Scott Richardson

Moved back to WA in time for 3 months of birding here.

Thanks, everyone!
