New Garfield County year record?? By 1 I believe

Steve Hampton

Hit 225 in JeffCo for the 2nd yr in a row -- with no pelagic and little to no mtns. Got stuck with no birds after Nov 12!

Greg Harrington

I was excited to see species 400 in Washington this past year.... :)

Spencer Hildie

164 motorless (running/walking only) in 2025

Marcus Roening

It felt remarkable to find 4 new State birds! Upland Sandpiper saga - all thanks to Raphael Fennimore. We were driving to Port Susan to pick up our kayaks, when I Alert came through from Raphael as we were approaching the I-5 and I-405 interchange, so I asked Heather to look immediately and it was a reported Upland Sandpiper! Four very, very quick lane changes to I-405 N and we were on our way to the Cedar River Mouth. We arrived in time to see it walking for a few minutes in the grass before it went behind the out building. Which is about the time Michael Hobbs came running. Moments later we all watched it appear in the sky, circle once and fly to the North, not to be seen again. Ten minutes later we'd have missed it and we would never have made it starting from Tacoma. This was a bird that has been on the wish list and long, long time. After moving out here for Grad School, I waited one year too late to see the bird outside of Spokane and have hoped for it to come back ever since.

Thanks, everyone!
